

# You are invited to participate!

This research is looking to learn if vaginal injection of PRP (platelet rich plasma) improves sexual function, including orgasm, arousal, and lubrication for sexually active women aged 18-50

## Are you eligible?

- Women aged 18-50
- At least one episode per week of sexual stimulation alone or with a partner

## Participants will be asked to participate in:

- 1 virtual screening visit
- 1 in-person clinic visit
- 2 virtual visits 6 weeks and 6 months after the procedure

## Participants will receive:

- \$100 compensation after final visit
- Parking validation for in-person visit

## Study Locations

- Virtual enrollment and follow-up visits
- One-time procedure visit at Medstar Lafayette Center  
1131 21<sup>st</sup> St NW  
Washington, DC

## What is a Platelet Rich Plasma (PRP) injection?

PRP is a concentrated portion of your own blood injected into your body tissues.

## What is it used for?

It is a non-surgical treatment used safely in orthopedics and dermatology that may increase sexual arousal and rejuvenate the vagina.
